

ACME STORE

Refund & Support Policy

1. Damaged Products

Customers may request a full refund for products that arrive damaged. The refund amount is based on the purchase amount recorded for the order.

2. Refund Approval

Refunds of ■1,000 or less may be processed automatically when the customer meets the eligibility requirements. Refunds above ■1,000 require human approval before the refund can be processed.

3. Missing Orders

Customers should contact support if an order has not arrived within the expected delivery period. Support should first check the order and shipment status.

4. Refund Calculation

For an eligible damaged product, the refund amount is equal to the purchase amount. Products that are not eligible for a damaged-product refund receive a refund amount of ■0 under this policy.

5. Support Agent Guidance

The support agent should verify relevant order information before determining refund eligibility. The agent must not bypass the human-approval requirement for refunds above ■1,000.

This is a fictional policy document created for the AI Agent course demonstration.
